

By Phat

CONTORTIONIST — Being built for comfort rather than for streamlined activity, the neatness and dispatch with which I can stick my neck out, open my mouth and put my foot in it, is always surprising. No one is more agile at that than I am. Last week I expressed displeasure because Mr. Morgenthau had set up a table for paying the withholding tax and because said table was in ten-dollar brackets. It figured out that only the fellow whose pay-check ended with a "5" would pay 20 per cent, those below as high as 23 per cent, those above, as low as 17. That was because in my own case, I figured the New Deal was getting a buck more a week than 20 per cent would entitle them to. That \$52 a year looked big.

STRAIGHT NOW—But not so. I'm all straightened out now. In Monday's mail came a letter from Alice Caine Parry who has been straightening out people's books in what she refers to as "this sun-drenched, care-free village" for the last six months. She knows all about the tax laws. Typed this tax expert: "Your comments on the withholding tax made good reading, especially for those poor citizens who are against everything anyway. All I have to say, Phat, is that you didn't read the instructions carefully. Paragraph 13 of circular WT says: 'At the option of the employer, the tax to be withheld may be determined either by use of the wage bracket withholding table or the application of the prescribed percentage rate to the amount of wages in excess of withholding exemptions.'" The words "option", "either" and "or" were underlined.

WELL, O. K.—"The employer does the figuring, my friend," the letter continued. "He does it in his spare time, between pinching for meat, bribing his remaining few employees and keeping track of his bank balance. If he tried to figure each paycheck by the percentage method when he finished he wouldn't have any business at all, because it would all have walked out the front door while he was trying to save an employee forty cents . . . the employees won't lose that extra buck because it will be credited against their 1943 income tax anyway. They are only paying on their income tax as they earn it, instead of next year when perhaps they won't have a dime."

GRATEFUL—That letter from Mrs. Parry was more than doubly welcome. Besides getting some excellent expert advice free, it gives me a chance to ease the worries of a lot of Village employees who, like me, had the wrong idea. (Mrs. Parry insists the column is widely read and that many were worried about paying too much because of it.) Outside of that, she thoughtfully provided me with the material for two-thirds of a column, a saving in energy not to be sneezed at in these days. Oh, yes, she offered an extra bit of advice in: " . . . and don't forget, if you make out a joint return, to give the address of the joint."

HOLIDAY — This week-end comes another of those triple holidays for which 1943 is noted. Fourth of July will mark the third time this year that bankers, civic employees and others who observe every legal holiday, will have two and a half days in a row. Washington's birthday fell on a Monday as did the observance of Memorial day. Coming up

Coordinated War Funds Drive to be Held During Fall

Mayor F. V. Shannon will head a delegation of interested citizens to Riverside Tuesday afternoon, July 13, for an important meeting at which time a Riverside county unit of the new California War Chest, Inc., will be organized.

Mayor Shannon is desirous of having representatives of all Village organizations engaged in fund raising campaigns for national war relief agencies, outside of the Red Cross, services to armed forces and home front activities represented at the Riverside session.

In a letter to Mayor Shannon received this week, A. B. West, of Riverside, appointed temporary chairman for the county unit, wrote that the new movement is designed to have all of these agencies stage their campaigns in one joint drive. This drive, Mr.

Army Tank To Be Named Palm Springs

Supervisor Will Act as Village Sponsor at Event

County Supervisor Floyd Gilmore, as Mayor F. V. Shannon's personal representative, Sunday will christen an army tank, "Palm Springs" at spectacular ceremonies to be held at Camp Beale, California, in recognition of the adoption of the 13th Armored Division as "California's Own."

Governor Earl Warren and official representatives of California's 58 counties and 285 cities will be honor guests of Major General John B. Wogan, commanding general of the division and the officers and enlisted men of his command at a stirring Independence Day event.

GOES NORTH

Gilmore left for Camp Beale, which is near Marysville, yesterday.

With a mighty phalanx of tanks and self-propelled artillery drawn up in formidable array, the governor will christen General Wogan's command tank "California." Mayors, their representatives, chairmen of county boards and other dignitaries will act as sponsors of the war machines named for cities and counties. Immediately after the ceremonies, the division, displaying its mobile might to the public for the first time, will stage an armored review. Never before in the history of the West has such a vast quantity of armored equipment been on view.

ALL KINDS THERE

Besides the tanks and gun carriers which will carry the names of the cities and counties of the Golden State, the units on review will include peeps, amphibious peeps or "seeps", scout cars, half-tracks, huge tank recovery trailers, wrecker trucks and other vehicles which give an armored division its lightning speed.

Extensive plans have been made to entertain the visitors.

Mayor Shannon was unable to attend the ceremonies and delegated Director Sorum to represent him. But as Mr. Sorum also was unable to attend, Mr. Gilmore was delegated as Palm Springs representative.

Important Changes in Point Values in Effect on Sunday

In its new official table of point values for processed foods effective July 4 and released today, the OPA makes 17 changes in point values, 12 up and 5 down. In addition, value of small sizes, seven to ten-ounce, cans of vegetables and fruit juices, is reduced from two points to one because the items have been "slow sellers". The cut applies to all rationed juices except pineapple juice.

At the same time, with beef for civilians in July expected to be scarcest since rationing began, point values for beef will go up one point on July 4.

MANY UP SHARPLY

Reductions in blue stamp values are confined to the group "canned and bottled vegetables". Advances in blue stamp values effective seen vegetable items and five fruit items.

The point values were changed to even up the movement of processed foods. Those going too rapidly have been upped sharply, the slow sellers are down.

Tomato catsup and chili sauce, which have been moving too rapidly, almost depleting stocks, are up sharply.

BEEF CUTS UP

The new point value for beef will place most preferred cuts at from 9 to 13 points per pound. Canned fish items are up four points per pound.

Reduction in red stamp values are confined largely to fats, oils and dairy products. Margarine and lard are down a point to four points and group II and III cheese are down.

Only reduction in meat points are for three pork cuts.

High School Board Re-Elects Burket, Sprague New Year

Charles J. Burket was re-elected president and John Sprague, Jr., clerk, of the Palm Springs high school board at a re-organization meeting held at the high school yesterday noon.

Routine business occupied the attention of the board at its annual reorganization meeting, set by state law for July 1.

By a special resolution the board voted to meet next on August 4 at which time a public hearing on the budget for the coming school year will be held.

Time for the August 4 meeting, which will be held at the high school, was set for 12 o'clock noon. The first regular meeting of the board after the opening of the new school year will be on September 14 at 7:30 p. m.

Dr. I. W. Lynn Opens Office in Palm Springs

Dr. I. W. Lynn, recently of Toronto, Canada, a physician and surgeon of wide experience with many years of successful practice back of him, has opened offices at 419 North Palm Canyon drive, in the building formerly occupied by the Cosgrove Clinical laboratory.

Dr. Lynn has visited Palm Springs off and on since 1929 and has been a property owner in the Village for many years.

TO MAKE HOME HERE

Because of the shortage of doctors in the Village to take care of the civilian population and because he has been interested in Palm Springs for many years, Dr. Lynn decided to make the Village his home. He has established office hours from 10 to 12 mornings, 2 to 5 afternoons and will also be at his office from 7 to 8 evenings. These hours are temporary and will be changed, if needed, for the convenience of the public.

Dr. Lynn has traveled extensively during his medical career, keeping up with the latest trends in his profession.

HAS TRAVELED FAR

He has visited and studied at practically every large important clinic and hospital in the nation, and in Canada. Before the war he also traveled and studied at many of the noted European hospitals and medical universities. Recently he was in New York and Chicago doing post graduate work.

Dr. Lynn has been resident physician and surgeon at some of the large defense plants in the southland, notably the Calship at Wilmington.

He has been looking forward to making his home here for a long time.

Mayor F. V. Shannon Reappointed Member Of County Council

Mayor F. V. Shannon was voted the city's representative on the county council of defense to succeed himself, at Wednesday night's council meeting.

Action was taken following receipt of a letter from the board of supervisors that his term on the council expired July 7 and that his reappointment or the naming of a successor should be made prior to that date.

Mayor Shannon, who has served as the Palm Springs representative on the county council for the past year, will serve his new term until July 7, 1944, as the appointments are for one year only.

Mr. and Mrs. Hawthorne Buy Village Residence

Mr. and Mrs. M. C. MacKinney have sold their modern residence, located near Palm Springs on the Indian road, to Mr. and Mrs. Roy Hawthorne. The MacKinnays are residents of Montebello.

Papers in the transaction were filed at the recorder's office by the Riverside Title company.

Don't Delay Applications For A Books

Act at Once, Plea; Volunteers Still Needed by Board

A double appeal was sounded to Village motorists this week by William A. Lippman, chairman of the Palm Springs War Price and Rationing Board.

Get your applications for A-book renewals in early—as soon as you can—right now.

If you can spare the time, can write legibly, can file, can help check figures, we need you. Telephone the ration board office, 2115, leaving your name and where you can be reached. We will notify you when we need your services.

Mr. Lippman explained that early mailing of applications was highly desirable as it would enable the volunteers to start processing renewal applications, checking tire serial numbers and attending to countless other details at once.

MAY SWAMP BOARD

If too many wait until the last moment, the board will be swamped and many motorists may find themselves without gasoline coupons of the A-book variety on July 21, on which date the present No. 6 coupons will no longer be of value.

The procedure, as outlined last week, is simple. All service stations have application forms. The instructions should be read carefully and followed. Mr. Lippman urged special precautions to fill out the applications exactly as indicated, to save time and checking by board members and to avoid a possible delay in obtaining a new A book.

MAILED TO BOARD

When the form is filled out properly, the back cover of the present A book, which bears the motorists signature and address, should be attached to the application along with the tire inspection record, and mailed to the local board office at 622 North Palm Canyon drive. Keep the present No. 6 coupons, attached to the front cover for use until July 21.

It was explained that it is better to mail the application than to bring it in in person as it saves the valuable time of the board clerks who are under constant pressure with other matters.

Mr. Lippman plans to organize his volunteer workers this week to start processing the applications on Monday, July 5.

Herbert L. Haas will take up (Continued on Page Eight)

Patients at Torney Enjoy Results of Villagers' Efforts

With a spurt of early summer enthusiasm, various groups in the community have rallied to meet a number of unusual needs at Torney General Hospital. These groups have been working through the Red Cross Camp and Hospital Service Committee, under the stimulation of Philip L. Boyd.

The Rotary Club through its committee composed of Frank Cutler, Fred Ingram and N. S. Hotchkiss perceived the need for coolers in the Recreation Building. One large cooler was purchased by the club and by John Wheeler.

VILLAGERS ASSIST

Another for the patients' lounge was lent for the summer months by Bullocks Palm Springs store; arrangements for this were completed by Harris Posey, manager of the local store. Two other villagers were instrumental in the installation of the cooler; Al Taylor, just after closing his Camera Shop, spent the whole day setting up and connecting the cooler while Chet Ross of the Palm Springs Motor Parts donated sufficient tubing for the water connection. Much appreciation has been expressed by the patients

Unit of New State Guard Asked Here

Organization of Company Object Of Captain's Visit

Captain Albert W. Eggen was in Palm Springs Wednesday of this week conferring with city officials and American Legion Post officials, on the proposed reorganization of the state guard here and the formation of a company as a unit in the Riverside county state guard set-up recently backed by county supervisors in a resolution adopted a week ago Monday.

Captain Eggen explained that under the new California State Guard bill recently signed by Gov. Earl Warren, the guard will be used for home defense work only and no unit will be assigned to duties outside of its own county.

MUST HAVE MISSION

He also declared that guard units are formed only in areas where guard missions exist. In Palm Springs, duties of guardsmen would be to protect public utilities and to function as an aid to the Civilian Defense council if need be.

A group of 34 men as the nucleus of a Palm Springs company is sought. It may be necessary, he said, to form a squad or two here of from 8 to 15 men and to operate with adjacent communities as a company unit such time as the local unit is complete.

TEN IN COUNTY

It is hoped to organize ten companies in the county area.

Major Robert O. McFall of Banning is executive officer for the county units.

Information on the new state guard law and on duties of the guardsmen, are now in the hands of Fire Chief Bill Leonosio and anyone interested in joining is urged to contact him as 2223.

Captain Eggen and Joe Omlin, adjutant of the local legion post, conferred on the state guard question Wednesday afternoon.

July Tire Quotas Are Reduced Again

Tire and tube quotas for Riverside county in July took another drop, it was announced today. There will be 1211 Grade I tires available in July as against 1341 in June. Other grades dropped, too.

Truck tires and tubes also showed a sharp drop.

Palm Springs Air Watchers Hear and See Fine Program

Summer will see no slump at the Palm Springs Ground Observation post according to Mrs. Dorothy Evitts, chief observer who presided at an enthusiastic meeting of local air watchers at the Frances Stevens school auditorium Tuesday evening.

A large turn-out of aircraft warning service volunteers heard talks on the vital work the ground observers are doing, saw pictures of observers' training and were given a brief summary of an aircraft recognition course to be launched here next week.

MOVIES SHOWN

Crowds at Pool Exceed Hopes Of Sponsors

Councilman Frank W. Cutler, member of the recreation commission in charge of operation of the Cutler pool at a municipal plunge during the summer months, reported to city council Wednesday evening that with the advent of warmer weather, the pool is becoming increasingly popular and that the intake, from the slight fees charged, is exceeding expectations.

Later in the summer season, he estimated, the receipts would increase sharply.

REDUCE CITY COST

When city council authorized use of a private pool as an experiment in a city recreation project and appropriated funds for its operation, it was estimated that the slight fee charged would be far below the cost of operation.

But the unexpected throngs which are using the pool promise to cut the anticipated deficit deeply.

The use of the pool was authorized for a month only on an experimental basis but indications are now that at its July 21 meeting, council will extend the authorization and appropriations to cover the full summer period.

POPULAR WITH KIDS

Monday of this week, the last day a check was taken for a report at Tuesday's council meeting, 75 Villagers and soldiers used the pool, Mr. Cutler reported. There were 37 children enjoying the cool waters that afternoon.

The pool is under the capable management of R. H. Bennett who is doing an excellent job, the council was informed.

Peter Sheptenko Is Back in Village Awaiting New Call

Peter B. Sheptenko, prominent real estate and insurance broker, is back in the Village awaiting another call from Uncle Sam after completing his basic training in the army ordnance division at Aberdeen, Md. A candidate for Officers' Training School, Sheptenko was released after his basic training to await re-opening of Officers' Candidates' school this fall, all quotas now being full.

In the meantime, while awaiting the call to return to the coors, Mr. Sheptenko is busy with his realty and insurance affairs here.

Upon his release from the army at Aberdeen, Mr. Sheptenko visited with many winter residents of Palm Springs in Washington, Philadelphia, New York and Chicago and said that they are all planning to be back in Palm Springs this fall and that most of them plan to come earlier than usual and stay longer.

Marriage Licenses Set New High Mark

During June, 289 marriage licenses were issued by County Clerk Gordon A. Pequignat's office, it was announced today.

This sets a new record for the county. The former high mark was 258, set just before the gin marriage act went into effect 16 years ago.

Walk Wash Bill Nears Trail's End

Amendment and Repeal Offered In Two Measures

Ordinance No. 137, adopted by city council on April 21, in effect on May 21, may be out on July 21.

The controversial measure, subject to more debate than any law on the city's books in recent months, was under further fire last Wednesday evening when city council met, and two measures, one amending it and the other an outright repeal, were introduced. Both will come up for action on July 21.

WALK WASHING BILL

Ordinance No. 137 is the bill which prohibits cleaning of sidewalks with water under pressure or in such a manner that water runs into the streets and accumulates.

At last Wednesday night's meeting City Attorney Roy W. Colegate read an ordinance amending No. 137 and repealing portions of it. The ordinance incorporated recommendations made to city council two weeks ago by Councilman Frank Cutler.

REPEALER INTRODUCED

Councilman Philip Boyd, after considerable debate had ensued over the Cutler measure, then introduced a brief ordinance providing for outright repeal of the walk-washing ban.

A split vote on both measures is indicated.

The Cutler amendments soften the original ordinance. They limit the hours of washing walks to between 7 and 8 a. m., prohibit the use of more water than is necessary to dislodge dirt, debris and adhering matter, provide for protection of pedestrians and automobiles by walk-washers and prohibit flushing of walks for periods designated by the street department for repairs.

SOME BANS REMAIN

Provisions of the present law against allowing irrigation water to run into the streets, the ban on washing automobiles in such a manner that water accumulates in gutters and other practices which fill the gutters with water, are retained in the new measure.

Following the reading of the amendments, Councilman Cutler asked his fellow board members to go on record on the matter.

Mayor Shannon declared he was opposed to repeal or changes saying that he represented merchants at the lower end of Palm Canyon drive as well as at the upper end and that the practice of flushing walks formed a lake in the lower end of the Village which was a menace to health and an inconvenience to traffic.

NOT CITY'S FAULT

He declared that statements that it was the city's fault that the lake formed at Arenas road (Continued on Page Eight)

Intensive Street Improvement Drive Planned by Sorum

Word was received by Ray M. Sorum, director of public works, that the city's application for the purchase of a skip-loader had been approved in Washington and that delivery would probably be made within 30 days.

With the arrival of the new equipment, Director Sorum will start a busy program of street repairs, held up because of lack of proper equipment and shortage of man-power.

Many improvements which have been held up in abeyance because of the time which would be involved and the number of men, if manually done, will now be quickly done with the arrival of the new equipment.

The campaign during the late summer months, with the arrival of the skip loader, will be mostly on dirt streets in the Village.

Councilmen Decide That Smaller Price Is Better if Smaller Risk Is Involved

City council studied and weighed odds as diligently as a seasoned horse race student Wednesday evening—and, like a veteran follower of thoroughbreds, decided that a short-priced favorite was better than a dubious long-shot.

This simulated form-sheet perusal came when City Attorney Roy W. Colegate reported on progress in the city's argument with the federal government over value of streets closed to make room for military establishments.

RECITES TROUBLES

Mr. Colegate recited the difficulties he had had with the various heads of governmental legal departments, declaring that when negotiations with one official reached a satisfactory basis, another department would chuck in a legal monkey wrench and another conference had to be organized.

He listed the price of going to court and the probable sum the city might gain. He pointed out, however, that the case might go against the city. Then, the city would be out the court costs.

SURE THING BETTER

On the other hand, he said, there was an excellent chance of a compromise in which the city would acquire a sum somewhat less than the amount it MIGHT win in legal battle.

An informal poll of the council, to get their consensus, revealed that all seven of them would rather back the short priced almost sure-thing (the compromise) rather than risk the long shot (the legal battle.)

Juvenile Cases Set High Mark in Court

Juvenile cases continued to set a high record in Riverside county courts with 156 minors before court during June.

On Tuesday and Wednesday, the last days of the month, Judge O. E. Morton, juvenile court judge, heard 30 cases, 15 each day.

While serving in the Navy for the duration, business is going on as usual.

When the number of former Southern Pacific officers and employees in the U. S. fighting forces passed the 12,000 mark, the event was observed by 30,000 of their fellow employees by War Bond purchases, blood pledges for the Red Cross and other wartime activities. This railroad now has a manpower shortage of 10,000. Picture shows President A. T. Mercier officiating at change of service flag marker.

Son of Councilman And Mrs. Adams at Home Enroute East

Councilman and Mrs. C. P. Adams enjoyed a week's visit recently with their son, Samuel R. Adams, who has been stationed in Alaska for many months.

The son was enroute from Alaska to Miami, Fla., where he has entered Officers' training school. He had many interesting tales to tell of exciting experiences in Alaska where he has been for two years and two months.

The Adams have another son, John, who is with the U. S. embassy staff at Ankara, Turkey.

Beckley's Malt Shop Open for Business; Drawing Throngs

Re-opened after a brief closure for repairs and redecoration, Beckley's Malt Shop, at the corner of Indian avenue and Andreas road, is proving a popular spot with Villagers.

Benton Beckley, the owner who has been in business here for past five years and who had leased the Malt Shop during the season to a Beaumont concern, is again operating the establishment himself and is specializing in ice cream, sherbets, ice cream novelties, all of which are made right in his own place.

New Reduced Sales Tax Schedule Now In Force in State

You'll still pay 3 cents state tax on articles costing you a dollar but when you get up into the higher brackets, the reduction in the state sales tax effective Thursday, will be felt.

The new state sales tax law, levying 2 1/2 per cent instead of 3 per cent as it has been, went into effect July 1. Under the revised tax schedule articles to 14 cents are exempt, from 14 to 59, the tax is one cent, from 60 to 99, 2 cents, from 1.00 to \$1.39, 3 cents and once cent additional for each 40 cents.

Under the old schedule, an additional cent was charged as sales tax for every 33-cent increase in price.

Fire Blackens Large Area Along Highway

Fire, which was first reported at 7:30 p. m. Sunday near the state highway at Cabazon, swept and blackened considerable acreage before it was subdued two hours later.

Fire trucks from Beaumont and San Jacinto forestry service stations and from the Banning city department, fought the blaze and a guard was maintained most of the night to prevent a fresh outbreak.

157 Draft Evaders Listed in County

According to reports received by Sheriff Carl Rayburn, from selective service boards in the county, there are 157 draft evaders in the county area, only two of whom have been apprehended.

In Riverside, Imperial and San Diego counties, the sheriff reported, 1070 draft dodgers have been listed and are being sought by authorities.

Mr. and Mrs. Eugene V. Griffes are spending the summer months at Hollywood.

Pay Telephone Bills before the 30th and receive your discount.

New Pension Law Will Benefit 3300 Persons in County

California's new pension law will benefit more than 3300 persons in Riverside county, it was revealed today by C. Burton Gibbs, director of the Riverside county welfare department. The new law went into effect Thursday.

Under terms of the liberalized aged aid plan, the maximum allotment is boosted from \$40 to \$50 a month, and responsibilities of children for the care of parents are lessened.

COST DECREASES

While the recipients of aged aid in the county will receive approximately \$33,000 additionally each month hereafter, the cost to the County of Riverside will be less than in former years because the state has assumed responsibility for a greater portion of the pension payment.

The County Welfare Department budget requires approximately a quarter of a million dollars less from local tax sources this year in spite of the great increase in the total amount of money to be distributed to the pension recipients.

LIST IS LOWER

Estimates of the number of elderly persons who will now be eligible to receive the aged aid funds have varied in California but the director of the Riverside county department believes the total will be under 10% of the total who have received the assistance in the past.

All questions concerning the pension program must be directed to the County Welfare Office.

Mr. and Mrs. Boyd Off For Brief Trip East

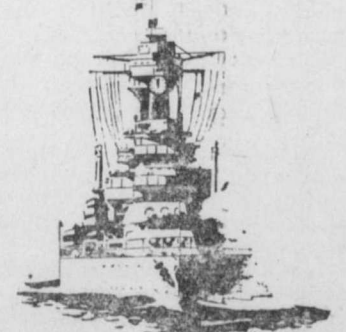

Councilman and Mrs. Philip L. Boyd left Wednesday night via Southern Pacific for Indianapolis, Ind., where Mr. Boyd plans to spend several days on important business matters.

They expect to return shortly before July 21.

What You Buy With WAR BONDS

Battle Wagons

When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

U. S. Treasury Department

War Brings Health Problem, McRory Informs Councilmen

Dr. O. B. McRory, city health officer, appeared before city council Wednesday evening in his first official visit since his appointment to that position recently and gave an informal report of health activities here.

He cited the war and nature as cause of two of the main problems of his department.

The war has brought about a complete stoppage of the manufacture of garbage cans, he said, and as a result some of those in use now are in a dilapidated condition and can easily become a health menace.

With temperatures mounting as the season swings into the middle of summer, constant operation of coolers and the resultant accumulation of countless pools of water bring up another health question he said.

The health department is giving the matter a thorough study.

Other affairs of the department are in good shape.

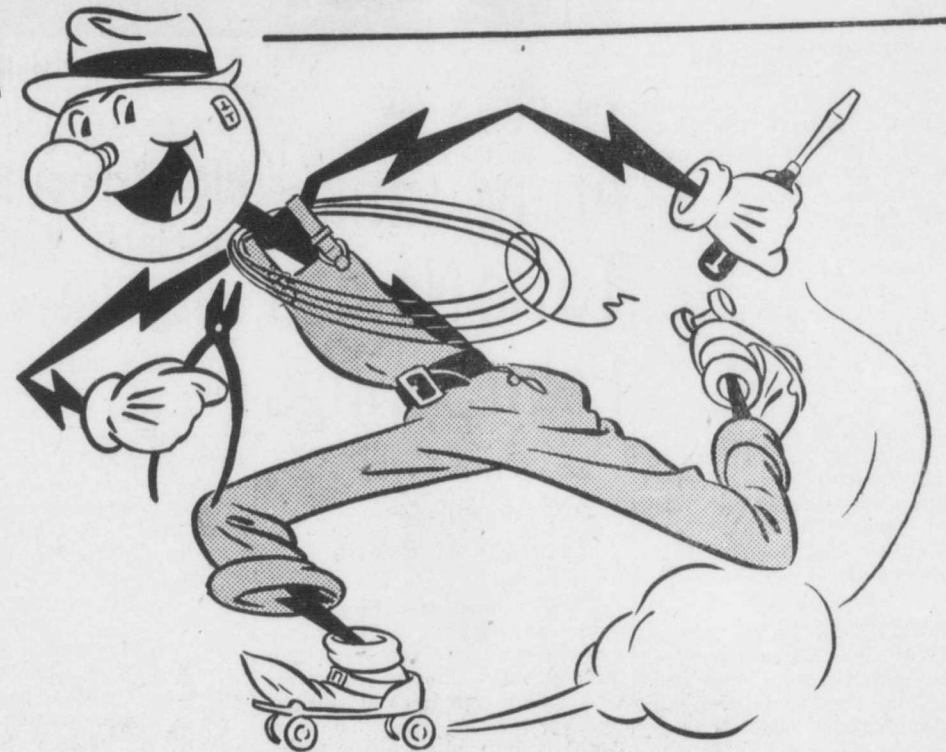

City to Advertise For Bids for Road Roller Equipment

The city clerk's office was instructed by city council Wednesday evening to advertise for bids for a road roller following report from Ray Sorum, director of public works, that such equipment is available now but might not be at a later date.

Bids will be open on July 12. Director Sorum conferred with WPB officers last week on priorities for the purchase of the needed equipment but received little encouragement. However the next day he was informed by the WPB that a used 7-ton roller could be obtained without the legal red tape.

Price of the equipment is \$1900 plus state sales tax.

If you can't get an Electrician... We'll help you out in an emergency

"We" are the Joes and Bills and Franks who give emergency service to our customers. True, we do not take the place of your regular electrician. On the other hand, it's surprising what we can do in a pinch with a pair of pliers and a little wire on an electric range, a poultry brooder or a lighting circuit.

Naturally, we are swamped with service calls. And our numbers are less. But we are still on the job to help you get the greatest comfort, economy and satisfaction from your electrical aids. So please be considerate and use us only in case of an emergency.

At such a time, call your local District Manager. Tell him your troubles and he will send one of us out as quickly as possible.

CALIFORNIA ELECTRIC POWER CO.

Simplified Dance Permit Ordinance Passed by Council

Ordinance No. 136, simplifying the issuance of dance permits, was adopted by city council at its meeting Wednesday evening.

The measure empowers Chief of Police Lyle J. Sanard to issue temporary permits when all requirements of the dance regulation ordinance are met. The temporary permits will be good only until the following council meeting.

Prior to the adoption of No. 136, all dance permits had to pass through council's hands. The new measure will enable organizations desiring to stage a dance at a date before the next council meeting, to obtain a permit.

BUILDING PERMITS

June 25 — Lem Stewart, 142 South Indian avenue, addition, \$350.

June 28 — J. E. Cooper, 572 Calle de Marcus, dwelling, \$75.

July 1 — C. T. Wooster, 2281 South Palm Canyon drive, re-roofing, \$150.

All Blackout Driving Permits Void July 18

Chief of Police Lyle J. Sanard received notice from Sheriff C. F. Rayburn, chairman of the civilian protection committee of Riverside county, that all existing blackout driving permits expire on July 18 and that blackout lights must be removed from cars unless a new permit is issued.

Applications for new permits must be on file July 12, Sheriff Rayburn said.

Adversity has ever been considered the state in which a man most easily becomes acquainted with himself, especially, being free from flatterers. — Samuel Johnson.

Air Base Officers' Wives Meet, Plan Activities for Year

In their first official meeting, more than 50 officers' wives of the 21st Ferrying Group, Ferrying Division, Air Transport Command at the local air base, rallied Tuesday afternoon at the home of Mrs. Pearl C. Livingston, mother of Capt. Robert C. Livingston.

Elections of officers and the naming of committee members topped the afternoon's official business for the club. Mrs. Betty Camp was elected president with Mrs. Mabel Cannon, wife of Lt. Col. Andrew B. Cannon, commanding officer of the 21st Ferrying Group, holding the position of honorary president. Mrs. Laura Lee Bering is vice-president; Mrs. Ruby Brainard, secretary; Mrs. Hazel Keeney, treasurer, and Mrs. Margaret Jennings, publicity.

Committees and their members were picked as follows — New Members: Mrs. Sally Price, Mrs. Edith Disharoon, Mrs. Lynn Erickson. Red Cross: Mrs. Dorothy Spore, Mrs. Sunny Lockerby and Mrs. Edith Mills. Welfare Committee: Mrs. Pearl MacFadyen and Mrs. Jean Wood.

Mrs. Dolly Evitts appeared before the group to tell them of the work of the Aircraft Observers Corps and invited them to join the Palm Springs unit of the organization.

Licenses Issued to Two Village Couples

Marriage licenses were issued last Friday to two Palm Springs couples at the court house at Riverside. They went to Melvin Arthur Crowl, 25, and Dorothy Delia Cook, 25, and to Daniel R. Hodges, 33, and Lucy V. Brown, 33.

Robert Lambeth, Jr. Marries Redlands Girl in Arizona

Robert Lambeth, Jr., and his bride, the former La Verne Dewey of Redlands, are at home at 228 Anderson street, Loma Linda, following their marriage at Salome, Arizona. The ceremony was performed by Justice of the Peace John A. Powers.

The bride is the daughter of Mr. and Mrs. George Dewey of Redlands and is employed in the Newberry store in that city. For the ceremony she wore a powder blue suit and floral pin given her by the groom.

Mr. Lambeth attended school in Palm Springs and Banning and at the present time is employed in the Montgomery tire service plant in San Bernardino.

Mrs. George Kreimer Home Again After East Coast Visit

Mrs. George Kreimer is back on the job again at the office of the California Electric Power company after a trip across the continent to be with her husband, George Kreimer, who is in the U. S. Navy, while he was on furlough. She was away from the Village for seven weeks.

Kreimer was stationed at Camp Edwards, Providence, Rhode Island, and Mr. and Mrs. Kreimer spent the furlough in New York and Boston.

Both are again in California, Mrs. Kreimer in the Village and Mr. Kreimer at Camp Parks to which place he has just been transferred.

Corporal Bill Lux Now in Minneapolis

And now it is Corporal Bill Lux.

The Palm Springs policeman, now on leave to serve with the army, was promoted this week, according to word received by Mrs. Lux here.

He has been transferred from Miami Beach, Fla., to Minneapolis, Minn.

A single ounce of gold can be beaten into such a thin layer that it will cover 146 square feet.

It's easy to find an argument — and twice as easy to lose one.

Palm Springs Girl Bride of Officer In Texas Ceremony

Mr. and Mrs. William James Taylor of 1661 South Palm Canyon drive, this week announced the marriage of their daughter, Miss Virginia Taylor, high school graduate and popular Village, to Capt. Kenneth Eugene Fox of Shelby, Indiana.

Fort Worth, Texas, was the scene of the wedding last Friday night and the happy couple are now honeymooning at the home of the captain's parents in Shelby, Indiana.

Captain Fox met his bride-to-be when he was stationed in the desert area and came to the Village on leaves.

He was transferred to Texas early this month and was granted a 12-day furlough soon after arriving. He at once wired his fiancée here and she left last Wednesday by train for Fort Worth. She arrived there Friday evening and the ceremony followed soon after, at 8 o'clock.

Following their honeymoon trip to Indiana, Captain and Mrs. Fox will make their home at Fort Worth.

Drivers Who Failed To Get Use Stamp Now Face Penalty

This week-end you are supposed to be displaying a little yellow use tax stamp in the lower right hand corner of your windshield. You should have had it by July 1.

Postmaster R. M. Gorham reported approximately 1500 of the use tax stamps had been sold here prior to the deadline. He expects to sell about 500 more.

Buford Purl, deputy internal revenue collector at Riverside, said motorists who failed to buy their use tax stamps at deadline time are subject to penalties.

Maurice McCann Off To Mountains To Fish for Dinners

For Maurice P. McCann, Los Angeles Times agent here, there will be no worries about the meat shortage for two weeks or more.

For this week-end, McCann is off to the Sierras country back of Lone Pine where he will put in his time catching his own dinners out of stream at Jordan Hot Springs, ranch owned by Clarence and Elmo Purnell in the Mt. Whitney area.

Clarence Purnell, who with his family is spending a month at the ranch, will bring Art Willis and son, who have been there for the past two weeks, out of the mountains Saturday and take McCann in. He is looking forward to a great time.

Mr. and Mrs. Paul Grimm have gone to the high Sierra country for a few weeks of vacation. Mr. Grimm, noted Palm Springs artist, plans to capture much of the rugged high mountain scenery on canvas before he and Mrs. Grimm return to the Village.

Rationing Rules

Your Coupon Schedule

Coffee — Stamp No. 21 good until July 21 for one pound per person over 14 years of age.
Sugar — Stamp No. 13 good for five pounds per person until August 15.

Shoes — Stamp No. 18 in War Book 1 good for one pair of shoes until October 31.

"S" Valid July 18.

Tire Inspections — A-book cars next deadline September 30.
B-book cars, next deadline, Oct. 30.
C-book cars, next deadline, August 31.

Await Details of Proposed Air Line Station for City

Additional details on the proposed establishment of Palm Springs as a regular stop on a new circle route planned by Western Airlines, awaited arrival of J. W. Charkeville, assistant to the president of the company, for conferences with city officials and army air base heads.

As announced in a letter from Leo Dwerllcotte, airline vice-president, the contemplated route between Burbank and San Diego includes scheduled stops at San Bernardino, Palm Springs, El Centro, Long Beach and back to Burbank.

ONE EACH WAY

Tentative plans call for one round trip each day each way over this circle, giving Palm Springs direct daily service with El Centro, San Diego and Long Beach east and south and with San Bernardino and Los Angeles to the west.

Mayor F. V. Shannon and Director of Public Works Ray Sorum conferred with air base officials this week and found them receptive to the proposal as an aid to the transportation of ferrying group pilots back to the Village.

TO DRAW UP PACTS

City Attorney Roy W. Colegate will draw up the necessary agreements between the city, army and Western Airlines after further details are ironed out and the start of service may follow shortly after.

Congressman and Wife Expected to Reach Home Today

Congressman John Phillips of Banning, forest representative of the 22nd district of California in which Palm Springs is located, and Mrs. Phillips are expected to return to their home today from Washington, D. C., where they have been since last December. Mrs. Phillips has been critically ill with virus pneumonia, and will it is understood, be unable to have callers the greater part of the summer. A nurse is accompanying Mr. and Mrs. Phillips.

Mrs. Phillips will remain in Banning until she is completely recovered from her illness. Her daughter, Miss Midge Phillips, has come from Los Angeles to be with her mother.

It will be necessary for Congressman Phillips to return to the capital for the opening session about Labor Day.

Congressman Phillips, who is a member of the important agricultural committee of Congress, plans a comparatively light summer of activities since the double strain of the busy congressional session and Mrs. Phillips' illness will make rest imperative for him also. However, he does plan some meetings in the three counties of his district — Riverside, Orange and Imperial — and will also address several organizations during the summer.

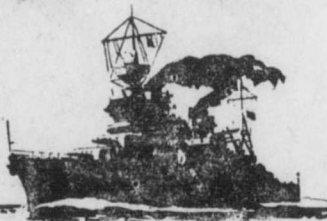

Congress is winding up its affairs at the present time and the representatives will be on call of the Speaker. Congressman Phillips began his term January 4, 1943.

True politeness requires humility, good sense, and benevolence. To think more highly of ourselves than we ought to think, destroys its quickening principle. — Lydia H. Sigourney.

What You Buy With WAR BONDS

5 Ocean Navy

When Pearl Harbor burst upon us our great expanse of territory was protected by a one ocean navy of about 350 first line ships with an addition of an approximate number building.

Now we are in a five ocean war and we are required not only to pay for the building of enough ships of the line but also for hundreds of Liberty ships and auxiliary craft. The amount of money you invested in War Bonds when we had a one ocean navy was all right then, it isn't enough now. Buy more and more War Bonds.

U. S. Treasury Department

That Second Cup Of Coffee May be Back With Us Soon

Those people who simply must have more than one cup of coffee before starting the daily grind received a cheerful earful from the OPA last week end.

That second cup of coffee is apparently on its way back.

Coffee stamp No. 21 in War Ration Book No. 1 became valid for one pound of coffee Thursday and will expire July 21. Coffee stamp 22 will become effective July 22 and expire August 11.

In the next six weeks, therefore, there will be two pounds of coffee per person. The stamp which expired Wednesday night stretched one pound over four weeks and the stamp before that had to do more than five weeks.

Frank Sabatella, of Frank's Shoe Repair on East Andreas road, plans to close his shop during July and August to take a long delayed vacation.

Independence Day

One hundred and sixty-seven years ago, a little band of early Americans, with high ideals and high courage, signed a covenant together—a covenant of freedom, which they pledged each other to defend with "our lives, our fortunes and our sacred honor."

That covenant, born in travail, defended in blood, has become our birthright—our Declaration of Independence. It has been handed down to us, from one generation to the next, as our priceless heritage. And we are fighting today, as we did in 1776, to protect it—with "our lives, our fortunes and our sacred honor."

American boys, as this is written, are dying on far distant battlefields in defense of this covenant of freedom. And thousands of others will die heroically defending it during the months which stretch ahead.

What, then, is this possession we have which is dearer than life itself? As we commemorate the Fourth of July this year, and rededicate ourselves to this, our American creed, we have need to re-examine it.

Our forefathers wrote:

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are Life, Liberty and the Pursuit of Happiness—That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed..."

A simple creed is that. But it cradled human liberty throughout the world. And today, in enslaved nations, men are waiting for the hour of liberation—ready to give their lives in revolt against those who have trampled on this code of free men; ready to strike a new blow for freedom.

Life, Liberty and the Pursuit of Happiness—these are rights men must have, if we are to escape a complete blackout of civilization. These are the rights we are defending.

Pressure Eases on Police Department And Arrests Fall to Low Point in June

Pressure eased on the police department slightly in June, according to the monthly report of police activities on file today at the city hall.

Chief of Police Lyle J. Sanard reported that there were but 17 arrests, all misdemeanor cases, during the month. Two months ago, there were 68 arrests.

DRUNKS HEAD LIST

Drunks, as usual, headed the list but there were only eight in June as compared to a score or more two months ago. Two were arrested for petty theft, two for possession of liquor on the reservation, two for violation of the rooming house ordinance and one each for drunken driving and vagrancy.

Motorists were better behaved in June, four being warned and nine cited into Judge Guy Pinney's city court.

39 COMPLAINTS

There were 39 complaints investigated in the month, including 14 cases of prowlers, two dog bites, four juveniles, eight theft cases.

Four cars were stolen in the month and four recovered, a 100 per cent score for the chief and his men.

Three women and three men left town—by request—in June.

The chief reported five investigations for the FBI and listed 33 soldiers as handled by Military Police through his office. Four morals charges were investigated.

Police cars traveled 5395 miles during the month.

The only ex-throne room under the American flag is in Iolani Palace, Honolulu, formerly occupied by the Hawaiian monarchs.

Yemen, Arabia, is the birthplace of cultivated coffee. The inland highlands have produced coffee since Mahomet's time.

Roy Colegate Joins Well Known Law Firm at Riverside

Thursday, July 1, it became official.

On that day, Attorney Roy W. Colegate, who for the past seven years has managed the local office of the law firm of Sarau and Thompson and who has filled the office of city attorney of Palm Springs, became a member of the law firm, as outlined in news items last week. The firm was established 28 years ago and is one of the oldest in California.

The official announcement by the Sarau and Thompson firm on the addition of Attorney Colegate as a full partner, revealed that the new member of the firm graduated from Loyola College in 1929. He passed the bar examination in 1930 and was admitted to practice.

He practiced nine years in Los Angeles before going to Riverside, being associated with the well known law firm of Hewitt, Ford, Crump and McCormick, and came to Sarau and Thompson as one of Southern California's capable young attorneys.

During his residence in Palm Springs, Colegate has filled the office as attorney for the Beaumont Irrigation district.

Attorney and Mrs. Colegate are in Riverside spending the summer. He makes weekly visits to Palm Springs to carry on his work as city attorney and to look after the interests of the law firm to which he has been admitted as a member.

EXCITING — Donald Barry and Jean Parker in a scene from "The Traitor Within" on the screen at the Palm Springs theater July 4 and 5.

On This Side...

(Continued from page 1)

later is Labor Day and the year will wind up with a double holiday on Christmas and New Year's which fall on Saturdays... If and when the reformed calendar is adopted, every holiday will fall on a Monday... If traffic is as thick next week-end at it was the Memorial Day weekend, a lot of people won't have to worry what to do with their A coupons when they send the cover of the book in for renewals... By the way, don't delay that procedure. Act now and you won't swamp the rationing board under pile of A book covers just before July 21.

FIREWORKS—July 4 is a holiday in Italy, too. It's Giuseppe Garibaldi's birthday. Mussolini's minions will have something on us, at that. They'll see plenty of fireworks on Independence Day—we won't... When Benito cast his lot with Hitler, he did it because he wanted a share in what Hitler got. Wonder if he still does... Says my punning friend, FDR, his request to Italy to get out of the war having been ignored, is now giving him plenty of plane talk.

OVER-RATED—The fellow who said: "Go to the ant, thou sluggard," didn't know our Palm Springs ants. They're industrious, all right, but it doesn't get them anywhere. The other night, while enjoying a movie at one of Earl Strebe's show houses, I noted during the unfolding of the plot, a kitchen scene in which a stack of unwashed dishes predominated. That reminded me. As I dashed to my bachelor quarters, I figuratively fought ants all of the way. When I got there, the ants were there, all right, but they were industriously by-passing the unscrapped dishes to swarm over the soap dish. If the Ivory people would make it worth while I'd tell you the name of the soap which apparently tasted so good... Incidentally, I'm getting good at housewifely duties. After I've carefully straightened out my bed now it merely looks like the ocean on a windy day. And only two months ago it used to look like a relief map of the Himalayas.

ONE MAN C. OF C.—They are calling Pete Sheptenko the 'one-man Chamber of Commerce' since he came back from the east coast. Everywhere he went he was so enthusiastic in his discourses on the Village that he had large and interested audiences who forthwith started the ball rolling to insure their presence in this foremost desert resort come fall... And Sheptenko says they are coming earlier this year... Last year's fuel shortage convinced many of them that they wanted to be where Nature provided the needed warmth on cold days and the Village realtor convinced them that nowhere else could they find just what they wanted but here... When one man heard him in a hotel lobby, he went to his room and came back with a brief case. At the bottom were millions in government contracts but at the top were clippings from the Desert Sun of Pete's ads... That was in New York. Like Sheptenko, the Sun gets around.

ANOTHER PROOF—Here is further proof that the Desert Sun does go places. O. H. Laveir called late one Thursday night, long distance, to place a classified in the next day's Sun. A week later he came in full of enthusiasm. Besides the many replies he picked up from Villagers, he had several from Beverly Hills and the metropolitan area, from San Bernardino, Blythe, Barstow, Riverside and way stations. He was amazed at the flock of mail and the variety of postmarks... Mrs. Dolly Evitts, chief observer for the aircraft warning service here, has a new idea to promote recruits for the local post. The government has just issued a new car for use of the local observers. She is considering an advertisement: "Be a volunteer air

Roy Sampson, Well Known Here, Wins Lieutenant's Bar

Roy A. Sampson, brother of Herbert Samson, of the Kocher-Samson Insurance company, and well known in Palm Springs, has just been commissioned a second lieutenant in the Canadian army and has entered advanced training work looking forward to a commission as a first lieutenant. He was a staff sergeant for two years.

Lt. Samson is attached to the famous "Princess Pat's" regiment and was on duty with that noted outfit for a month before being sent to Officers' Training school. He enlisted from his home town of Sault St. Marie in 1939 and went overseas in December of that year. He is a veteran of the Battle of France and was within 30 miles of Paris when France capitulated. He was evacuated through Brest at the time of Dunkirk.

Lt. Samson first came to Palm Springs in 1935. He attended San Bernardino Junior college in 1936 and 1937 and was employed in the office of Sorum and Wilson here in 1937 and 1938. He made many friends while a resident of the Village.

Lt. Samson is 25 and hopes to be in on the ground floor when the Big Push is started against Hitler in Europe.

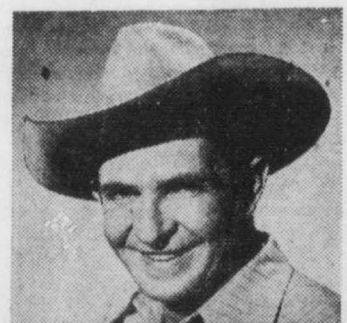

HERE NEXT WEEK — "The Falcon Strikes Back" featuring Tom Conway, above, will show at the Palm Springs theater July 7 to 9.

raid observer and drive a new car—with new tires."

THIS AND THAT—Time marches on—but not at the post office. The clock in the lobby there has pointed to 25 seconds after 12:25 for the past week. Some republican must have looked at it... Echoes of a Palm Springs tragedy were heard here this week. In the showing of "Coney Island" at the Plaza, credit for the songs in the hit picture was given Ralph Rainger, noted composer, who lost his life on a mountain side near here in an airplane crash last October. The tunes were some of the last he had written. His widow and three children were recently awarded \$77,000 damages as result of that crash.

ODDS AND ENDS—Last month police made 17 arrests, two months ago, 68. The Village is calming down. Chief Lyle J. Sanard remembers when two arrests during summer months was a high mark... Soldiers, here from Georgia with their cars, display patriotic licenses. The Georgia plates are red, white and blue... There are still a lot of California cars on the highways without their little Red V's... Since Pearl Harbor, the National Safety council reports, 40,000 American have been killed in traffic accidents. Casualties listed by the armed forces in that time are 15,132. Join the army and be safe... A thief stole an Oregon man's auto. When police recovered it, he didn't want to prosecute. When it was stolen there were only three gallons of gas in the tank. When he got it back, the tank was full.

TODAY'S BAD NEWS—Hitler's office in the Brown palace at Munich is reported a mass of ruins as result of bombing raids... but Hitler wasn't there when the bomb landed.

THRILLER—Tom Taylor in "The Valley of Hunted Men" at the Palm Springs theater July 10.

Villager, Stricken Ill While Visiting In North, Succumbs

Mrs. Hazel Gottschalt, daughter of Mrs. Sadie Murphy, head of the local office of the Banning Laundry company, succumbed in a Fresno hospital after a brief illness, according to word received by her mother late Sunday night. Mrs. Murphy at once left for Fresno.

Mrs. Gottschalt, who is widely known here, was visiting her husband, who is stationed at Camp Roberts, and relatives in the north when she was stricken ill. She boarded a train for a Los Angeles hospital but became worse and was detained at Fresno and taken to a hospital there where she failed to rally. Besides

Coordinated Aid...

(Continued from Page One)

West wrote, is to be held in the fall, leaving the spring months for the Red Cross exclusively. A national organization has been set up which will coordinate all state drives and assist in their organization, audit and select those national agencies which may participate in the drive, establish quotas and assist with publicity.

her husband and parents, she is survived by a four-months old daughter. Mrs. Murphy plans to bring the daughter back with her.

As Hazel Murphy, Mrs. Gottschalt was widely known here. She was a graduate of Palm Springs high school and was employed at the Tropic Palms Gift shop.

Gottschalt also is well known here. He was employed for a time at the Del Tahquitz hotel and at the B-Bar-H ranch. He was working at the post office at the time of his induction into the army.

At the Riverside meeting with Mayor Shannon and a local delegation will attend, representatives from all county communities will be present.

The mayor urged all local organizations engaged in fund raising for war relief, or for soldiers, or home front activities, to arrange to attend the session as Mr. West asked for a full representation of the entire county.

The meeting is scheduled for 2 p. m. at the Seventh street USO, 3425 Seventh street, Riverside, a week from next Tuesday.

Villagers Improve Collections of Fat For Munitions Use

Palm Springs housewives, along with others in southern California, are heeding the plea that the collection of waste fats for ammunition, is falling woefully behind schedule in the area.

According to word received by Walter Illick, chairman of the local salvage committee, from Zack Farmer, chairman of the WPB in the southland, collections of waste fats for May were up 76,508 pounds over the April total. The total for May was 374,507 pounds and one pound of grease makes half a pound of dynamite, Mr. Farmer said.

Collections in Riverside county were listed as 4,119 pounds, still far under the quota but higher than in March or April.

Mr. Farmer said that there is still much to be done. The May figure is 52 per cent of the southland's quota, or slightly better than half. In April, the southland fell far behind and only collected 40 per cent of its quota.

SALUTE!—MacDonald Carey and two lovelies form a gleesome threesome in Paramount's Salute for Three with glamour girls galore at the Palm Springs theater July 7, 8 and 9.

Cathedral City

W. R. HILLERY

Did you ever live in a little place other than Cathedral City and work to make it a fine place to live in and when something commendable was done for or by the community, you were proud and when it failed to shine, you were low? Well, as a war village, we don't seem to measure up to what some of us hoped villagers would do. Maybe we expect too much. But as a peaceful place and one that is desirable as a home town, it is most satisfying.

This week we received our copy of National Geographic Magazine and the article by Willard Price on North Africa that we expected to appear earlier occupied first place in the July issue. It is most informative and well illustrated. It is too bad the magazine can't be had at all news stands. We did procure a copy for our library. Mr. and Mrs. Willard Price are residents and owners of their home here and we are glad they live in our community because aside from literary prominence they are excellent citizens and neighbors.

Not far from the Price dwelling is the studio and home of Agnes Pelton, another resident of sterling character and an artist of such ability that her paintings are known internationally. These notes were not written with the idea of making a directory of our talented residents but I have just learned that a group of paintings by Agnes Pelton are being sent to San Francisco for a special exhibit.

Our small free public library is doing nicely. We own the lot for its future home and have several hundred dollars in the bank toward a building fund. There is a fair selection of volumes owned by the library association and these are supplemented by several hundred volumes from the Riverside County Library. Mrs. Marie Ide is a very active lady who not only does all the things necessary to maintain a fine home for her husband and two little daughters but takes two long shifts on the observation post, conducts a mid-week Bible class and then volunteers her time as librarian and keeps the library open at the Town Hall each Wednesday evening. June, a month that ordinarily is packed in moth balls, is donated to our military families as well as the regular residents who have to remain here so long as the war lasts. 150 books were taken out during that month, which shows the effort is appreciated. Donations of books are quite frequent and an interesting one that will shortly be added to our collection by Mrs. Edna Cobb is what may be a book collector's copy by Wall, "Following Abraham Lincoln, 1809-1865." Wall made etchings of all the scenes he could find along the route in Lincoln's life and they are plentifully grouped throughout the volume.

Here is news for the property owners that may not drop into the classification of culture but means another step toward a more orderly community. Last week I told of visiting Riverside officials and learning that our program, under the direction of James W. Kyle, to name and place signs on our streets and then to number the houses, was on a siding awaiting the action of the planning commission. The County Planning Commission met June 29 and recommended that the street names be changed and that the numbering system be installed for Cathedral City. The names of streets and other information will appear in a later issue of The Desert Sun. Most of the changes of names were from letters and numbers to names of desert shrubs and flowers.

A bit of news came to us of more than passing interest. It concerns our good neighbors, Mr. and Mrs. H. A. Snyder who have Snyder's Date Garden ranch near here as well as their retail store in the Linkletter building within our village. Acting as agents they purchased ten acres of Da-Vall ranch holding which is just south of the Snyder ranch and it will be the future home of Mr. and Mrs. Herbert Kindred and their son and daughter. Mr. Kindred, son-in-law of the Snyders, has been with the Standard Oil Co. at Ketchikan, Alaska, for a number of years and though relatively a young man, is due for retirement soon and looks forward to his home on the desert. This will mean two more youngsters in the local school and it reminds me that last week I mentioned the McLearn family had purchased the W. H. Williams property and they have moved into their new home. Now I learn that son Don will be in high school and son Gerry in our Cathedral City elementary school.

Chet Mero is home or is he? Anyway he was reported back here last week after serving in the navy on the east coast, being attached to the Construction Battalion. Mrs. Mero, who owns and operates Helen's Beauty Shop, promptly closed up her shop for the week and we have an idea they are having a vacation together on the coast. Look for bulletins.

Work is progressing on an office extension for the Blue Haven Court and this will be a great convenience to Dr. and Mrs. E. H. Brandt, who operate the court.

I don't know the details of the building but F. E. Martell, who was a contractor when people were building houses, schools and commercial places, is building an adobe on one of the nearby ranches. I have always thought adobes were a good bet on the desert. They lend themselves architecturally to this area and are self insulated. In our home I share this opinion alone. While good adobe mud is not in our back yard, I have often wondered why some enterprising builder would not make a specialty of that type of material while the other kinds were scarce. Of course I know you can't build a house of mud alone. We have no restrictions on the use of the material in our community.

James Swinnerton, famous artist, accompanied by Mrs. Swinnerton, were in Cathedral City Wednesday inspecting their property.

The result of the drive to interest additional volunteers to man the observation post is hard to determine due to transfer of some of our present personnel.

LICENSE ISSUED

A marriage license was issued Thursday at Riverside to Olin R. Furr, 22, and Ruth M. Carter, 18,

Uncle Sam Now Collecting Income Tax From Nation's Workers Pay-as-You-Go

In effect since Thursday, Uncle Sam is now collecting the 1943 income taxes as fast as the nation's workers collect their pay checks. The nation is now on a pay-as-you-go plan. One-fifth of all salaries are withheld from pay envelopes by employers who are acting as agents for the department of internal revenue.

A table of exemptions has been set up whereby a single man or a married man whose wife is also working and claims half of the exemption pays on all above \$12 he earns weekly and a married man, head of a household, all he earns above \$24 weekly. Exemptions are allowed for dependents, too.

The first step to be taken in the pay-as-you-go tax plan, tax experts say, is to have each employee fill out and sign the withholding exemption certificate before the first pay day. If a certificate is not signed, the withholding is made on the entire amount of the payment as no exemption will be allowed. This certificate is known as form W-4 and is to be retained in the employer's files.

The important part of the act at this time, it was said, is the withholding feature on payroll. Although the tax becomes effective today, July 1, if a payroll period begins prior to July 1, the withholding of 20 percent will not become effective until the beginning of the next payroll period. That is covering a payroll period, starting June 28 and ending July 3, the withholding will be on the Victory tax basis as has been done during the past six months and the 20 percent withholding period will commence July 5.

The act deals primarily with its effect on taxes withheld and paid during 1943 and subsequent years and the main purpose is to place all individual income taxes on a pay-as-you-go basis.

EMPLOYER LIABLE

The employer is made liable for the payment of the tax required to be deducted and withheld and is required to remit the amounts withheld within 30 days after the close of each quarter on form W-1. If the amount withheld is \$100 or more during the month, he must pay within 10 days after the close of the calendar month to a depository and financial agent authorized by the Secretary of the Treasury, all funds withheld as taxes during the calendar month. Receipts which he will take for these amounts are to be attached to his quarterly return form W-1.

In addition to making the return on form W-1 for the fourth quarter of the calendar year, the employer is required to make what is called "Reconciliation of Quarterly Returns" on form W-3 to which he will attach the statements to employees—forms W-2 and V-2.

Exempted from the withholding tax, under the law, are payments for services performed as a member of the armed forces of the United States other than pensions and retired pay included in gross income, agricultural labor, domestics for service in a private home, casual labor not in the course of employers' trade or business, money received for services performed as a minister of the gospel.

Every employer must furnish to each employee in respect to his employment during the calendar year on or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of wages is paid, a written statement showing the wages paid by the employer to such employee during the calendar year, and the amount of tax deducted and withheld. These statements will be made on Form W-2 in duplicate, the original going to the employee and the duplicate held by the employer.

The summer drought just ended in Argentina is reported to have been one of the worst experienced in 50 years.

(Continued from Page One)

go, were shown by Lt. Roy Starnes and Sgt. James Crail.

Culver Nichols, area supervisor for the ground observation service, spoke briefly on the work of the observers and gave a general talk on the importance of that work.

Miss Marjorie Pohl, who has just completed a course at the army aircraft recognition school at Los Angeles with Mrs. Leone Inman, spoke on this subject.

TO CONDUCT CLASS

Miss Pohl and Mrs. Inman will conduct a weekly course in aircraft recognition at the Frances Stevens school auditorium each Monday night from 7 to 9.

Mrs. Evitts reported that the response to her appeal for volunteers for the local post was excellent. She recently passed out cards at the theaters and many of these were returned. Appeals in the press also brought in many who volunteered. Among these were several wives of officers at the air base here.

GET NEW POST CAR

Mrs. Evitts was in Los Angeles this week and brought out a new car for use of post volunteers. The government leases these cars to transport volunteers to and from the post and recently called in all of the old cars.

New ones were issued this week and Mrs. Evitts brought a new Chevrolet to the Village. The car will be used by ground observers here for transportation to the post.

What You Buy With WAR BONDS

"Smoke Eaters"

A battlewagon loaded with various explosives, bombs, torpedoes, oil and gasoline is not the safest place to be with a fire raging, so all but the smaller ships of our Navy are equipped with elaborate fire fighting apparatus.

It may be that this equipment never will be used during the entire course of the war, but it must be paid for out of the War Bonds and Stamps that we are setting aside each payday. U. S. Treasury Department

Palm Springs Recreation Program Listed in Annual National Review

Palm Springs' recreation program is among those listed in the annual Recreation Year book for 1942 just published by the National Recreation board. The national report contains detailed information on the recreation program here for civilians and soldiers, along with similar data on almost 1,100 communities.

As here, softball, swimming, and other athletic events topped the program.

Total attendance last year of participants and spectators at 8,005 playgrounds was approximately 300,000,000, it was reported.

In this connection, Councilman Frank Cutler, member of the local recreation program, recited events in Riverside as an indication of what a recreation program can do when fully organized and when the public awakens to its real benefits.

Ten years ago, he said, Riverside started its recreation program on an organized basis. Officials and merchants had to be won over to its benefits but now Riverside has one of the busiest recreation programs in the southland. This year 12 new centers and another pool were added to the program. Now the public, business men and officials say it's one of their greatest assets.

Mr. Cutler hopes that a program on a proportionate scale can be adopted here and that within a few years Palm Springs will be well equipped to furnish adequate recreation.

Mr. and Mrs. Carl G. Lykken have gone to Idyllwild to spend the holidays in the mountains.

21st FERRYING GROUP NEWS NOTES

Ferrying Division, Air Transport Command, Army Air Field,
Palm Springs, California

By Sgt. George Goodale

THE NATION'S BIRTHDAY

Sunday is the Fourth of July, Independence Day. It's the anniversary of the day our United States of America forsook the womb of subjugation to be born a lusty infant with a fiery passion for freedom and justice and a deadly contempt for tyranny, lust and inequity.

We, personally, like to think of each and every day as independence day. We can in this country. It's our way of living. But—

We also like to think that tomorrow, each and every tomorrow as it blossoms forth, will be an independence day, too. We guess that's why there's a war going on so that you, me and millions of others with unfettered souls and minds can breathe freely.

It took blood-shed to get that Declaration of Independence signed and it took blood-shed to keep it from being a mere scrap of paper. It's causing blood to be spilled now, as it's done since the birth of this nation, to keep it a place where the only mailed fist is the fear of God.

This Fourth of July will have its minimum of bursting fire-crackers and brilliant pyrotechnics at night. However, across both oceans, powder will burst and explode. Maybe it will be a fellow American pulling the trigger to speed a missile of death on its way to uphold our way and the just way of life. Maybe it will be just the opposite, and a kid from your Main street and mine will have fallen—his body stilled, his smile sealed forever. But the memory of his sacrifice must live, must live to prod the rest of us into giving our best and our all so that he will not have fought and fallen in vain.

Remember, on Sunday, the Fourth, and on every day afterward, that our present lot isn't so bad. When you get fed up, think of—

Cpl. Leo Neuman, a nice looking lad, with a tenor voice as clear as a mountain stream, as ringing as a bell and as sweet as your best girl.

Lt. Frederick K. Efrige, tall, handsome, cheerful, a way with the girls, and a guy always finding excuses for the enlisted men under him.

Lt. Dellie O. Ullrich, soft-spoken, sincere, appreciative, happily-married, and a prince of a fellow.

Lt. Andrew Luchsinger, full of fun and zest, dynamic with energy, full of the love of living.

Capt. Don Brown, son of Joe E. Brown, big fellow, a great future ahead of him, cheerful and dependable and with a hatred of oppression.

Lt. Raymond W. Burroughs, determined, aggressive, a guy who participated in the rugged, back-breaking, sweat drenching jobs with his enlisted men.

Lt. James W. Campbell, who loved to live, too, who flew an airplane because he thought it the fastest way to travel to a world-wide freedom.

These men comprise our 21st Ferrying Group Honor Roll in Valhalla. Most of us knew them, knew them well. They're gone on the longest trip they've ever taken. Their job has been done. They left the rest of the task to us, because they knew we'd do it.

So on this Fourth of July, 1943, let's make our celebration a resolve to carry on for them so that when our time to meet them arrives, we can look them unflinchingly in the eye because we kept their faith!

TEST THE HEAT

Changing the subject abruptly, we'd like to refer just once more to the weather. We know that you know it is hotter than the breath from a blast-furnace, but we found—through necessity, not choice—a hotter place.

Our office is in a new building and they had to try out the equipment this week. One of the things they had to operate for three hours to see if it worked was—the heating system!

Brother, we are here to say, at least that portion of us that didn't evaporate, that it works to perfection. We were so hot that an acetylene torch would have run a poor second to us.

HONORS FOR AIR BASE

If you are one who prefers your musical entree a la Rachmaninoff instead of rampant boogie-woogie, then you will be elated at the honor given to a member of the

21st Ferrying Group—Pvt. Leonard Pennario, the 18-year-oldster who can make a piano talk in seven different languages, plus speaking English correctly.

He will be the guest solo star in the Hollywood Bowl, the great amphitheater in the cinema capital, on Sunday night, July 11, for the performance of Rachmaninoff's Third Concerto in D Minor (second and third movements). Erno Rapee will conduct the Hollywood Bowl Symphony orchestra.

Pvt. Pennario played with this orchestra in 1939 when Dr. Otto Klemperer was the conductor.

Lt. Col. Andrew B. Cannon, Post commanding officer, is to be congratulated on making Pvt. Pennario's great talent available to the huge crowd that will attend.

PROP WASH

When Lonnie Suto, the colonel's pretty secretary, told someone about Pvt. Pennario's engagement she said it was in the Rose Bowl . . . which is the place where football players tear each other's ears off . . . not where piano players yank out the keys of a baby grand . . . incidentally, the Suto girl drove an automobile through the

wee, small hours while two husky soldiers slept the sleep of peaceful babes in the back seat . . . someone left a nice combination pencil on our desk . . . which they can have if they'll reveal themselves . . . S-Sgt. Richard "Pappy" McGill back from his Wisconsin furlough . . . Lt. Paul Butler back on duty after attending special services officers school . . . the new PX opened with a bang . . . it's a cool place . . . a swell place to buy cheaply what you want . . . and has everything . . . Cpls. Clifford Henderson and Bud Proctor off to take an examining board . . . "for valuable contribution to the air transport industry" Lt. James Jennings, assistant squadron operations officer, has been awarded membership in United Airline's 100,000 mile club . . . S-Sgt. Glenn Cartwright's allowed only seven runs to be scored against him in eight consecutive victories in the army soft ball league.

HOW TO DO IT

Frances Langford, a former client of ours, heard we were a sergeant and wrote us a story that Bob Hope tells on his camp shows about sergeants. Seems a colonel was lecturing a class of incipient officers. "A 40-foot flagpole has fallen down," he said. "You have a squad of ten men. How do you erect the flag pole again?" The candidates offered suggestions involving a block and tackle, derricks, etc. "You're all wrong," the colonel finally declared. "You'd say 'Sergeant, get that flag pole up!'"

HARD LUCK CHAMP

Hard luck champion of the Post is Sgt. Henry Plante. His aunt took sick and fell out of bed in the hospital, broke her hip, punctured her heart and died. His brother fell off a step-ladder and broke a wrist and a leg. His sister went to close a window and the wind blew the window on her. Her skull was fractured.

All this happened in one week. As for himself, he's afraid to get out of bed for fear of injury.

MEN, MAIDS AND STUFF

We received still another postcard this week regarding Lt. Billy Bold's matrimonial hopes. The writer, apparently feminine, again urges to keep him in the mood. He's interested, but who is she?

By the time this hits the news-stands, Sgt. Olon Furr and Miss Ruth Carter, who works at Torney, may be Mr. and Mrs.

Cpl. Al Miller and CeCe Sloan of Hollywood have set August 15 as their date.

Sgt. Norman Dolsky and Miss Virginia Suchowsky of Carney, Michigan, were spliced here this week.

Wives of the officers met and bought an extensive layette for Mrs. James Williams, wife of our sergeant whose home was razed by fire. The couple have hung out

* AAC—Army Air Corps

the welcome sign for Sir Stork.

Pvt. Ralph Zellers has been joined by his wife from Bakersfield.

GETS NEW CIVVIES

There isn't any rhythm in G. I. shoes, at least that's the story that got a new pair of kicks for Pvt. Jimmy Richards, drummer in the band. He complained that he couldn't use his foot equipment on the drums with G. I. shoes and that his civilians were worn out. He got an order for new civvies.

OF FAMOUS FAMILY

Lt. J. W. Caraway, the recruit training officer of the base squadron, is of the famous political Caraway family of Arkansas. Senator Thaddeus Caraway and the senator's wife, Mrs. Hattie Caraway, who succeeded him in the senate, were the lieutenant's cousins. The lieutenant's father, W. M. Caraway, had two sons in the state legislature. His son was his campaign manager.

COLD SOBER, TOO

Pfc. Samuel Watson doesn't drink a drop, but he does sleep in an upper bunk. He dreamed of snakes last night and fell out of his berth trying to catch one. Result: He didn't snare a snake but he had to report to the station hospital for treatment on an injured shoulder.

CHAPLAIN'S CORNER

General services Sunday, July 4 will be held in the old mess hall at 9 a. m. Lt. Walter Farris, chaplain, will speak on "When God Says 'Yes'" and guest soloist will be Sgt. W. N. Lovelady from Torney and a former Methodist minister.

Sunday evening at 8 o'clock the Revival Hour will be held. The Chaplain's message will be "God's Gift to Mankind" and the soloist will be Sgt. Bill Bloodworth.

On Wednesday night at 6:30 o'clock an old fashioned hymn sing will be held.

For a special affair all Hebrew worshippers will meet at the old

mess hall Monday night, July 5, at 6:30.

The regular services are open to all officers, men and civilian personnel of the Post and for persons of all faiths.

For every 5,000 miles of driving you should have your engine tuned and the shock absorbers checked.

Singing Tires often produce a job for Singing Choirs—at somebody's funeral.

Gala Show Features Opening of New Gym At Ferrying Base

The opening of the air base post gymnasium was a huge success, thanks to a spirited bunch of trouper from Hollywood.

Led by the comedy star, Frank Morgan, who got a laugh a minute, they staged a two hour show that was lively from start to finish. With Morgan was his radio pal, John Conte, singer and Morgan's heckler. Clever comedienne Mabel Todd, a laugh-provoking bombshell, had the men making with those belly guffaws with her smart use of G. I. terminology. Also on the laugh side—and good—was the master of ceremonies, Maury Amsterdam.

Singing hit of the show was young Tommy Dix, one of the stars of the new picture "Best Foot Forward," and a member of the New York stage show. Right up with him on vocals were Helen McClure, and a big beautiful blonde who was as easy to view as to hear, Barbara Mace. Jo Carol Dennis, Miss America of 1942, sang and danced and the boys sighed at her looks. A clever dance team, was the Franklin D'Amours and a marvelous control dance was Virginia Carroll. Pvt. Lou Spencer, a visiting soldier and from the Broadway stage, was a great tap dancer.

Bill Smith, Hollywood agent and former soldier, managed the group and we thank him and the USO-Camp Shows, Inc.

A coincidence developed between Lt. Edgar L. Sinnott and John Conte. In talking they discovered that in 1933 Lt. Sinnott gave Conte his first job in show business in a Hollywood stage show, "Tale of Two Cities." Sinnott was production manager and Conte carried a spear.

Craft and Hobbies' Show at Hospital Highly Interesting

Crafts and hobbies hold the major interest of patients at Torney General hospital last week, according to the Red Cross recreation workers. An exhibition of work produced by the men showed real talent and a great variety of hobbies.

Art work and cartoons covered the walls of the lounge of the recreation building and tables were filled with articles made in the work-shop and in the wards.

Model boats, planes, jeeps and tanks formed an interesting part of the show, with the models placed in combat formation on suitable backgrounds. Wooden novelties from scrap lumber showed variety and ingenuity, with wooden soled sandals, bookend, fly swatters and name plates being shown in greatest numbers. Creative work was translated through the medium of clay, with an interesting group of pieces finished by the Wednesday evening clay modeling class.

The entire craft program has increased in both numbers participating and variety of articles produced during the month. Regular visits to the wards with craft materials by the workers gives the bed patients and men in restricted wards an equal opportunity to do something with their hands during the long convalescent period.

TORNEY GENERAL HOSPITAL EVENTS

News of the Enlisted Men of the Medical and Quartermaster Detachments at Torney Army General Hospital, Palm Springs
By S-Sgt. Russel H. Genich

ALL'S WELL WITH JOHNNY DOUGHBOY!

Theme for today—Uncle Sam is doin' right by Johnny Doughboy! Question of the week—What special effort is the Army General Hospital putting forth to make the patient rehabilitation (ment as well as physical) program a complete excursion up the road to recovery and further duty?

A patient's life ain't "hell" in a General Hospital.

Shucks no, the nurse don't hold the patient's hand and read bedtime stories to him. She's busy assisting the doctor in administering the medical treatment, which, incidentally is second to none. So, the patient's on first base when he enters the hospital, because the finest medical care in the World is available to him.

So what? Where do we go from here?

THE RED CROSS

Allow us to introduce the Red Cross and the Special Service department, who pick up the strings where the Medico's drop them and carry on a whale of a battle.

For the patient who's "flat on his back" there are ward movies provided by Red Cross and ward entertainment units provided by Special Service. In addition the portable library delivers books to all wards twice a week. The patients requests for toilet articles, etc., are taken care of by the ward man. The Art in National Defense group have taken their Arts and Crafts program into the wards to the bed patients, many of whom have thereby acquired new hobbies, such as weaving, belt making, carving, etc. "Gray Ladies" handle the letter writing chore for those who are unable to do their own.

ALL ALONG THE LINE

Well, our patient is able to get out of bed. What now? Red Cross "to the fore."

There's the daily craft program at which Mr. G. I. acquires a number of hobbies under the excellent guidance of well-trained recreation workers. The swimming pool is made available to convalescent patients at a given time each day. The late afternoon brings full-length first run movies twice a week. Special Service plans concerts and stage shows to fill in the dull moments. Games and cards are given widespread distribution. Trips to the USO are planned for a bit of diversion.

So, the patient's life ain't "hell." How about "goldbrickers" who feign illness to partake of the patient's existence? They're usually disposed of at sick-call, and further claims of aches and pains are discouraged by a strategically prescribed remedy, Capt. Simonsen's own taste terrier (strictly laxative). Incidentally, the remedy is sure-fire discouraging material.

SPORTS STUFF

"It was the calm before the storm and also the deadening silence after defeat. Softball activity on the TGH 'campus' was at its lowest ebb last week awaiting the beginning of a new round-robin tournament between the various military teams in the Palm Springs area.

But busier days were ahead as a new league and a new schedule began to take shape, with two new teams entered in the league.

KEGGLING

The new bowling schedule moves right along with just a few changes in the team and individual standings as a result of last Friday's session. Individual averages generally tumbled. Top honors changed hands as Graciffe's average dropped 8 points to 181, while Davisson's 213 third game held his loss to two points—at 183. Caccamise dropped 13 pins to a 155, tie for 5th with Carr. Tietson's 160 was

Bingo Party, Table Tennis Tourney, for Patients at Torney

Special events conducted by the Red Cross at Torney for patients have included a bingo party, a ping pong tournament and an exhibition of coins and trinkets from over-seas during the past two weeks. About thirty patients participated in the bingo party, with Pat Hudson winning first prize for the evening's play.

Ping pong was played under the lights on the tennis court adjoining the Recreation building, and brought the largest turn-out for tournament play that has participated in that style of activity.

Promotions, Wings, Assignments Mark Air Base Activities

Promotions, awarding of wings, departure to army air force school and assignments of officers comprised part of the administrative activity this week at the local army air field, according to announcements by Lt. Col. Andrew B. Cannon, commanding officer of the 21st Ferry Group, Ferrying Division, Air Transport Command.

Officers given assignments included:

Lt. James R. Maxwell, photographic officer, Lt. Louis Olshansky, defense plans and training and physical training, Lt. Miles Scull, Jr., assistant special services, assistant public relations and theater officer, Lt. John B. Bell, assistant base personnel and assistant group personnel, Lt. William B. Phillips, assistant factory acceptance officer, and Lt. Leslie I. Ferrell, assistant group and assistant base operations officer.

Named as qualified aerial engineers and authorized to wear the aviation badge for crew members were Lt. Lawrence B. Askins and Cpl. Henry Altschuler.

Eastbound trains arrive here at 12:08 p. m., 8:24 p. m., 10:21 p. m. and 12:02 a. m.

Firemen Called Out Twice But Find No Work on One Trip

Firemen were called out twice this week but once there was no work for them — it was a false alarm.

Sunday night a brush fire off Tahquitz drive near the mountains blackened a large area before it was subdued by the local department. The department was called back to the same area Monday morning when smoldering ashes were fanned to life by the wind.

Wednesday the department was called to the north end of the Village but it turned out to be a false alarm.

Sisal rope is the best substitute for manila rope because of its strength.

Episcopal Church To Remain Closed For Summer Weeks

Final services of the season were held last Sunday at St. Paul's-in-the-Desert Episcopal church, West Alameda, and the church will be closed for the months of July and August.

The Rev. Robert M. Hogarth, Vicar, will spend the summer months at Del Mar, on the San Diego county coast, where he will be in charge of St. Peter's Episcopal church. The pastor of St. Peter's, the Rev. Edward McNair, has gone into the army service as a chaplain.

Rev. Hogarth plans to return to the Village about Sept. 1 and regular services at St. Paul's will be resumed Sept. 12 at 8 and 11 a. m.

Interesting New Lecture Series at Community Church

An interesting new series of sermons was started last Sunday by Dr. J. R. Macartney of the Community Church on "Men Who Missed It." A large congregation was present at the 10:30 a. m. service.

Taking a man from secular life and also one from the Bible as an illustration of "men who missed it," Rev. Macartney last Sunday told the story of Aaron Burr who missed being president by one vote because of a lapse in character.

Aaron Burr, said Dr. Macartney, was a brilliant student and in his youth, held great promise. Had he attained the presidency, the speaker said, he would have been the most brilliant and scholarly man to live in the White House. But he repudiated the Christian faith and fell away from the life which seemed destined to become great, and he died a broken and disappointed man.

The Bible character used to illustrate further "men who missed it," was Samson. A child of promise with a splendid start in life, Dr. Macartney said, he let the Spirit of God depart from him and also became a man who missed it.

Next Sunday Dr. Macartney will select another man from secular life and one from the Bible to further illustrate his theme.

Mrs. Gordon Burt Will be Soloist at Community Church

Mrs. Walter Illick, in charge of the music at the Community Church, announced that the soloist at next Sunday morning's service will be Mrs. Gordon Burt, wife of an army officer stationed here.

Mrs. Illick also announced that the organist for the summer months will be Mrs. E. L. Horton. Mrs. Illick plans to have a different soloist at each Sunday morning service. The early appearance of a talented quartet composed of colored soldiers now stationed here is anticipated.

There is no policy like politeness, since a good manner often succeeds where the best tongue has failed.—Elias L. Magoon.

It is only when the cold season comes that we know the pine and sypress to be evergreens.—Chinese.

More helpful than all wisdom or counsel is one draught of simple human pity that will not forsake us.—George Eliot.

You cannot dream yourself into a character; you must hammer and forge one for yourself.—

Wednesdays at 8 p. m.

CHRISTIAN SCIENCE CHURCHES

"God" will be the subject of the Sunday Lesson Sermon in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. This declaration from Isaiah is the Golden Text: "The Lord is our judge, the Lord is our lawgiver, the Lord is our king; he will save us."

In Daniel the story is told of Nebuchadnezzar who believed the "great Babylon" was built by his power and for the honor of his majesty. Then "there fell a voice from heaven, saying, . . . The kingdom is departed from thee. And they shall drive thee from men, and thy dwelling shall be with the beasts of the field: . . . until thou know that the most High ruleth in the kingdom of men, . . . And at the end of the days I Nebuchadnezzar . . . blessed the most High, and I praised and honoured him that liveth for ever, whose dominion is an everlasting dominion. . . . At the same time my reason returned unto me; . . . and I was established in my kingdom, and excellent majesty was added unto me."

Mary Baker Eddy says in "Science and Health with Key to the Scriptures": "The only guarantee of obedience is a right apprehension of Him whom to know aright is life eternal. Though empires fall, 'the Lord shall reign forever.'"

OUR LADY OF SOLITUDE CATHOLIC CHURCH

BEAUTIES—Joan Carroll with a bevy of beauties in "The Hit Parade of 1943" starring Carroll, Susan Hayward, with Eve Arden and Walter Catlett, at The Plaza, July 4, 5 and 6.

Woman Physician, Resident of Banning, Becomes New Head of County Hospital

The new head of the Riverside county hospital is Dr. Bessie Martell of Banning who was appointed to the position by the board of supervisors at the regular meeting Monday. She succeeds Dr. Joseph Maschmeyer who resigned. Dr. Martell has been resident physician at the hospital since last October.

Dr. Martell is the wife of John T. McKenzie, owner of the Desert Edge Court near the east city limits of Banning. She gave up her practice in Santa Ana following her marriage to Mr. McKenzie in April, 1935. When the war came and so many doctors were called into the service, she felt that she should do her part. She tried to enlist in the Navy but was turned down because at that time that branch of service was not accepting women. Later she offered her services to the hospital.

SIX YEARS IN AREA

The Martells went to Banning in 1937 and built the Desert Edge court which she assisted in managing until she joined the hospital staff last October.

Dr. Martell is a graduate of the Loyola school of medicine, Chicago, and had post graduate work in Vienna, Lisbon (Portugal) and Cairo (Egypt). She specialized in pathology and at one time served as pathologist to the Santa Ana Valley and St. Joseph's hospital

Robert L. Williams Home for Brief Visit With Mother Here

Robert L. "Bud" Williams, widely known Village youth, was a visitor in Palm Springs recently, with his mother, Mrs. Ada L. Williams, at her home on North Indian avenue. Williams, who was in charge of C. V. Knupp's Desert Electric company shop before leaving for college, is now at Georgetown University, Washington, D. C. He is an ensign in the USNR while completing his studies.

While not at his studies, he is employed as a policeman on the United States capital force and bears the distinction of being the youngest man on the force. He is 21.

Williams is assigned to the House of Representatives and is stationed there while on his police duties.

in Santa Ana as well as being staff pathologist at the Orange county hospital. She is a past president of the Santa Ana Clinical Society and the Orange County Medical Association and is the only woman ever to have held both positions.

WINS BY 3-2 VOTE

Dr. Martell was appointed head of the hospital over the recommendation of the county medical association which has recommended Dr. W. Edwin Gardner of Riverside for the position. Voting for the appointment of Dr. Martell were Supervisors Robert E. Dillon, R. W. Stanfield and Floyd Gilmore. Supervisors Walter V. Pittman and Ed. Hill, both of Riverside, cast negative votes.

What You Buy With WAR BONDS

Mosquito Bar

Among the casualties returning to the United States from the Solomons are men who have lost their hearing, not from injury, not from shock, but from attack by insects upon men who have been without mosquito bar protection.

We'll never know how many lives this mosquito bar has saved and you probably never will know just how much good your purchases of War Bonds have done, but you should know that regular and increasing purchases are necessary.

U. S. Treasury Department.

WAAC OFFICER HERE—Mrs. Martha James, of Palm Springs, is the new WAAC recruiting official here. At her desk at the Ransom-Cree office she has all the information and application forms needed and Village girls and women, interested in the WAACS, are urged to contact her.

and the Red Cross staff for these generous contributions.

Not to be outdone by the Rotary Club, the Lions Club also formed a Camp and Hospital committee to make its contribution to the needs of the nearby posts. The committee, headed by Lloyd Simon and consisting of Joe Henderson, Merrill Crockett, John DeVine and Bill Veith, has proved very helpful to Torney. Sixty bathing trunks in various sizes were procured for patients able to swim, but who had no suits of their own. According to those in charge of the swimming pool, the suits are in constant use by grateful patients.

SAYS IT WITH MUSIC

Bill Veith headed a project for the procurement of musical instruments for the patients. An unusable instrument had been contributed some time ago and on an excellent exchange Mr. Veith was able to obtain three very usable and popular guitars for it. These were most welcomed by the patients for musical activities in the Recreation Building and in the wards.

Phonograph records of the Palm Springs Vanities were sent to the hospital by Simon, who was also instrumental in securing a small radio donated by Father Raley, of the Catholic Church. Another project being considered by the Lions Club committee is that of furnishing a music room in the Recreation Building where the patients may make records to send home or may listen to the radio or phonograph.

The Women's Club was represented in these projects by a donation by Mrs. William A. Lippman, newly elected club president, who sent a console type phonograph and a number of records to the hospital. These were placed in the day room of the members of the Medical Sanitary Companies, where the men are deriving constant enjoyment from the music.

The term glass, formerly applied only to soda-lime or potash-silicates, is now extended to include borates, phosphates and synthetic resins of various degrees of transparency.

Australia is experimenting in raising Russian dandelions and Mexican guayule to increase the supply of rubber.

and the drive were misleading.

"We are not responsible for the poor drainage at that corner. The situation prevailed when the city was incorporated and the city is taking steps to improve it. I am opposed to any changes until the improvements are in."

Councilman C. P. Adams said he believed the new ordinance confusing and difficult of enforcement.

WORKING ON PLAN

Councilman Eugene Therieau asked information on progress of installing a drain at Arenas road and Palm Canyon drive and Director of Public Works Ray Sorum, said that plans, specifications and estimates were being prepared by City Engineer J. F. Davidson and that blue prints had been submitted.

The proposed drain will eliminate one big objection to flushing walks in that it will do away with the pool at the corner.

REPEAL INTRODUCED

Following further discussion of the amendments, Councilman Boyd read his proposed repealer measure.

Action on both the amendments and the repeal will be taken when council meets on July 21 at which time full membership will probably be present.

The July 7 meeting will be but a brief one.

The shellac coating formerly applied to oranges to prevent their shrinkage in transit has been replaced by a wax coating to save shellac for war use.

Mutascio Describes Legion Boy State Activities to Lions

Nick Mutascio, son of Mr. and Mrs. Harry Mutascio, told members of the Palm Springs Lions club and guests, of activities at the American Legion's Boys' State, recently held at Sacramento.

The young Villager, who graduated from Palm Springs high school in May, was picked by the local post of the Legion as the Palm Springs delegate to the event which annually brings together boys from all parts of the state. There were approximately 600 present at this year's session.

FUN AND BUSINESS

The boys are given lessons in government from city units on up. Nick was elected a councilman for one of the "cities" at the Boys' State.

"Congressmen elected by Boys' State visited the state capital as one feature of the State.

Talks were heard by noted authorities, boy attorneys practiced law, and the session combined serious study with wholesome fun.

DR. OERTEL PRESIDES

At yesterday's Lions club meeting, largely attended despite the summer let-up of activities, Dr. E. E. Oertel of Palm Springs high school, presided in the absence of club president Culver Nichols.

E. Stanton Griffing represented the local American Legion post at the meeting.

plications for A books from military and civilian personnel at Torney General Hospital, thus relieving some pressure from the board office downtown. He has the necessary forms and information for applicants at a desk at the hospital.

"BOOK" IS SHEET

A preview of the new A book was available this week. It consists of a card which folds up to the size of the present A book. The book contains eight No. 7 coupons and eight of each of the following numbers, 8, 9, 10, 11 and 12. If the present basis of one series of coupons every two months is retained, the new A book will last one year.

Board members reported that applications were pouring in with every mail and that the total is expected to reach several thousands.

NO CUT—NOW

Setting at rest the fears of many motorists that the present value of coupons, four gallons each in California, might be reduced, Price Administrator Prentiss M. Brown in Washington announced Monday that no change in value of the coupons was now under consideration.

How long this situation would endure, he would not estimate.

Mr. and Mrs. Peter B. Sheptenko were guests of Charles Morrison at the latter's famous Mocambo Club in Hollywood Tuesday night.

Jack A. Schardt Now in Training At Farrgut, Idaho

Another Village youth with the rapidly growing contingent of Palm Springs boys training for service with Uncle Sam's Navy at Farragut, Idaho, is Jack A.

Schardt, 18, son of Mrs. Dorothy Johnson of this city.

Schardt was a student at Palm Springs high school when he enlisted in the Navy. He has been at the Idaho base since early in June, leaving to enter the service just before his 18th birthday which fell on June 2.

The distress call "S O S" was adopted internationally in 1906.
